

Salk Families,

Below are suggested supply lists to help your child set up for the upcoming school year. We made sure to keep in mind that students will be working from a personal workspace as we start our year, and some will choose the opportunity for a small group session in the classroom. The items below are suggested items only and **not required**. We will have extra supplies at school to make sure every student has what they need to start the year successfully! We encourage your child's supplies to be labeled.

Teachers will be giving you more details on what to bring to school for the small group, "in person," days in September.

We are excited to launch the learning journey for the students on September 8th. We can't wait to get back to the best part of our job, working with our Salk Families!

Mrs. Skladanowski and the Salk Staff

Because we cannot allow students to share community supplies this year, we are suggesting each student have a "Supply Kit" of labeled items that they can take back and forth between home and school if they are attending our small-group sessions. The items listed below are suggested to help your child with both virtual and small-group learning.

If you purchased the 1st Day of School Supplies, please take time to review your child's supply list.

Our district has invested in several new disinfecting protocols to keep our building as safe and clean as possible, and all spaces will be disinfected daily. That being said, teachers always appreciate donations of extra bottles of hand sanitizer, hand soap, and disinfecting wipes if you're lucky enough to find them and wish to donate them.
