Dear Parent/Guardian:

**Key Points Related to Claiming a Nonmedical Immunization Waiver for Children
Attending Michigan Schools and Licensed Childcare Programs**

In early 2015, Michigan instituted an administrative rule change on nonmedical waivers for childhood immunizations. Parents/guardians seeking to obtain a nonmedical immunization waiver for their child/children who are enrolled in school or licensed childcare programs are required to attend an educational session, where they are provided with information about vaccine-preventable diseases and vaccinations.

Key Points

- The rule applies to parents/guardians seeking a nonmedical immunization waiver for their child/children enrolled in public or private:
 - Licensed childcare, preschool, and Head Start programs
 - Kindergarten, 7th grade, and any newly enrolled student into the school district
- This rule preserves your ability to obtain a nonmedical waiver.
- Nonmedical waivers (religious or philosophical/other objections) are available at your county health department and cannot be found at schools/childcare programs or physician offices.
- Parents/Guardians are required to follow these steps when seeking a nonmedical waiver:
 1. Contact your county health department for an appointment to speak with a health educator.
 2. During the visit, immunization-related questions and concerns of the parents/guardians can be brought up for discussion. The staff will present evidence-based information regarding the risks of vaccine-preventable diseases and the benefits/potential risks (risks consisting mostly moderate side effects) of vaccination.
 3. Schools/childcare programs will only accept the current, un-altered, official State of Michigan form (Any new waivers issued should have the revision date of January 10, 2021.)
 - A county health department will not issue a waiver without both signatures as it would be considered an incomplete and invalid waiver.
 - Forms cannot be altered in any way (this includes crossing information out).
 4. Take the current, certified waiver form to your child's school or childcare program.
- If your child has a medical reason (that is, a true medical contraindication or precaution) for not receiving a vaccine, a physician (MD/DO) must sign the State of Michigan Medical Contraindication Form.
- Based on the public health code, a child without an up-to-date immunization record, a certified nonmedical waiver form, **or** a physician (MD/DO)-signed medical waiver shall be excluded from school/childcare.

For more information, please visit www.michigan.gov/immunize > click on *Local Health Departments* > click on *Immunization Waiver Information*. This website will provide you with a link to all the county health departments, along with their addresses and phone numbers.

Information required for:

Early On – Hearing and Vision Status; Diagnosis; Health status

Child Care Licensing – Physical Exam, Restrictions, Immunizations

Head Start/Early Head Start – Determination that child is up-to-date on a schedule of age-appropriate preventative and primary health care, including medical, dental, and mental health. The schedule must incorporate the well-childcare visit required by EPSDT and the latest immunizations schedule recommended by the Centers for Disease Control and Prevention, State, tribal, and local authorities. An EPSDT well-child exam includes height, weight, and blood tests for anemia at regular intervals based on age.

Developed in Cooperation with the Department of Health and Human Services, Education, Michigan American Association of Pediatrics, Early Childhood Investment Corporation, Child Care Licensing, Head Start, Michigan State Medical Society, Michigan Association of Osteopathic Physicians and Surgeons.

The Michigan Department of Health and Human Services will not exclude from participation in, deny benefits of, or discriminate against any individual or group because of race, sex, religion, age, national origin, color, height, weight, marital status, partisan considerations, or a disability or genetic information that is unrelated to the person's eligibility.

WHAT IS A CONCUSSION?

A **concussion is a type of traumatic brain injury** that changes the way the brain normally works. A concussion is caused by a fall, bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. A concussion can be caused by a shaking, spinning or a sudden stopping and starting of the head. Even a “ding,” “getting your bell rung,” or what seems to be a mild bump or blow to the head can be serious. A concussion can happen even if you haven’t been knocked out.

You can’t see a concussion. Signs and symptoms of concussions can show up right after the injury or may not appear or be noticed until days or weeks after the injury. If the student reports any symptoms of a concussion, or if you notice symptoms yourself, seek medical attention right away. A student who may have had a concussion should not return to play on the day of the injury and until a health care professional says they are okay to return to play.

IF YOU SUSPECT A CONCUSSION:

- 1. SEEK MEDICAL ATTENTION RIGHT AWAY** – A health care professional will be able to decide how serious the concussion is and when it is safe for the student to return to regular activities, including sports. Don’t hide it, report it. Ignoring symptoms and trying to “tough it out” often makes it worse.
- 2. KEEP YOUR STUDENT OUT OF PLAY** – Concussions take time to heal. Don’t let the student return to play the day of injury and until a health care professional says it’s okay. A student who returns to play too soon, while the brain is still healing, risks a greater chance of having a second concussion. Young children and teens are more likely to get a concussion and take longer to recover than adults. Repeat or second concussions increase the time it takes to recover and can be very serious. They can cause permanent brain damage, affecting the student for a lifetime. They can be fatal. It is better to miss one game than the whole season.
- 3. TELL THE SCHOOL ABOUT ANY PREVIOUS CONCUSSION** – Schools should know if a student had a previous concussion. A student’s school may not know about a concussion received in another sport or activity unless you notify them.

SIGNS OBSERVED BY PARENTS:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Can’t recall events prior to or after a hit or fall
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes

CONCUSSION DANGER SIGNS:

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. A student should receive immediate medical attention if after a bump, blow, or jolt to the head or body s/he exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people/places
- Becomes increasingly confused, restless or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously.)

HOW TO RESPOND TO A REPORT OF A CONCUSSION:

If a student reports one or more symptoms of a concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of athletic play the day of the injury. The student should only return to play with permission from a health care professional experienced in evaluating for concussion. During recovery, rest is key. Exercising or activities that involve a lot of concentration (such as studying, working on the computer, or playing video games) may cause concussion symptoms to reappear or get worse. Students who return to school after a concussion may need to spend fewer hours at school, take rests breaks, be given extra help and time, spend less time reading, writing or on a computer. After a concussion, returning to sports and school is a gradual process that should be monitored by a health care professional.

Remember: Concussion affects people differently. While most students with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.

Advisory To Parents / Guardians

Dear Parent or Guardian:

State of Michigan law requires that schools and day care centers that may apply pesticides on school or day care property must provide an annual advisory to parents or guardians of students attending the facility.

Please be advised that the Fraser Public Schools district utilizes an Integrated Pest Management (IPM) approach to control pests. IPM is a pest management system that utilizes all suitable techniques in a total pest management system with the intent of preventing pests from reaching unacceptable levels or to reduce an existing population to an acceptable level. Pest management techniques emphasize sanitation, pest exclusion, and biological controls. One of the objectives of using an IPM approach is to reduce or eliminate the need for chemical applications of pesticides. However, certain situations may require the need for pesticides to be utilized.

Please be advised that parents or guardians of children attending Fraser Public Schools may review the district's Integrated Pest Management program and records of any pesticide application upon request.

If you have questions regarding the district's pest management procedures, please contact:
